

# Freeway 4 Actions List

This is a list of Actions available from the Softpress site (<http://www.softpress.com/kb/category.php?id=19>). So far, I have not included those from Action Developers who have put their downloads on their own sites. I think it will be safe to assume that the latest versions are there, and that those people are taking responsibility for updating the Actions themselves.

I have tested the Actions for publishing problems and validation (using BBEdit). Actions have been tested in HTML4, XHTML Transitional and XHTML Strict on a single blank page. I have not tested whether Actions work together (or not) as the combinations are astronomical.

This list is not a complete list of available Actions. If an Action you have is not listed here fails, please check with the Action's writer about a Freeway 4 version.

## Key:

O = Action publishes OK

X = Action fails.

## Open Source Actions

Actions written by Freeway users and contributed to the community for free use, study, and improvement

Action Name	Author	HTML 4	XHTML Trans	XHTML Strict
Add Footer	Paul Dunning	O	O	O
Alternate Font Tester	Walter Davis	O	X	X
